### Disclaimer

Information shown on screens for this tutorial was taken from test data developed for the hazardous waste reporting program. Device, process, and other information from existing facilities were used for illustrative purposes only. Existing facility data was used to show typical usage of screens in the program. None of the information presented in the following screens should be viewed as accurate information.

## **Exemption Form Screen**

The exemption form should be used if the site did not generate any hazardous waste during the reporting period. Check on up to six reasons as to why the site is exempt. If the six choices are not sufficient, click on the other (specify in comments below) box and then supply information in the Comments section area. We also need to know if the exemption is applicable to the reporting period only or should be a permanent exemption. Remember to click on the Save Exemption Form before moving to the submit data portion of the program.
